

MEET KERRIE

*Mum. Passionate about health. **Gymnastics Coach***

"We are creating a positive work environment for healthy kids to thrive."

That moment before Rec Alley

Before joining Rec Alley, I held jobs as a travel agent, bank loans officer, group fitness instructor and personal trainer. I have experience across a wide range of jobs and industries. I was working in an admin job that unfortunately came to an end when the company had to close down. That's when Rec Alley became a great option for my next role.

Joining Rec Alley

My children have been coming to Rec Alley since it opened. I could feel it had a positive vibe and fun environment to work in. Applying for a job with Rec Alley made complete sense and it worked for the family too.

There is a real supportive culture

I love a workplace that is inclusive, where people have fun and are valued team members. My experience at Rec Alley has been fantastic, it's a great facility with very supportive staff and management. There is a real supportive culture amongst staff and even the members!
Every shift is a lot of fun.

The future... And, my advice

Who knows what the future holds. There are so many opportunities, let's see where this journey takes me. My advice is give it a go, **we are creating a positive work environment for healthy kids to thrive.** This is a great motivation to come to work each day.
